

Onda Sailski

The Onda Sailski is all about fun on the water. Quick handling and highly maneuverable the Onda is a great day paddling machine. The freedom of the sit-down board is exceptional. Walk into knee deep water and sit down...you're away! The Onda can be used for anything from shoreline excursions and exploration (dangle your feet in the water) to a play/swim platform, or for serious aerobic/fitness paddling. Return to the beach and step down into knee deep water and stand up. No difficult extractions from a cockpit. The Onda screams summer fun paddling but that's only the beginning. The Onda Sailski is rigged and ready for high speed user friendly fun. As a sit down sailboard with pedal steering the steep learning curve of a sailboard is replaced with an easy to learn, easy to steer, easy to balance, get wet and go fast machine. It is suitable for kids through to seniors. And unlike other small craft...never worry about being becalmed and stranded...just paddle home. Your paddles tuck neatly under the forward bungies for use at any time.

Specifications: Onda (Spanish for Wave)

Sail area: 38 sq ft with reefing points at 30 sq ft and 24 sq ft
