Specifications:

Length: 19'10"

Width: 21"

Weight: 58lbs

Hatches: 16"x9", 18"x8"&6" round

Layup: Propriety Kevlar™ and fiberglass standard

All Extreme Interface Kayaks have Keelguard™ strips fore and aft to protect your investment while loading, beaching, landing, or dragging your kayak. Made of Delrin™ (think cutting board Material) Keelguard™ Strips are a long lasting money saving and boat preserving feature.

Sporttrek™ Rudder: The only balanced foil rudder in the kayaking world provides unsurpassed efficiency, handling, and control. The Sporttrek™ retracts internally, can function as a skeg, kicks up on impact, and has single line deployment. Nothing will speed your journey like a Sporttrek™ Rudder.

Real Rubber handles (soft and comfortable), a forward day locker for valuables and accessibility, beefy u-bolt lock anchor and a molded internal hull liner with integral bulkheads show our commitment to detail and function in our designs.

Quantum from Extreme Interface:
Welcome to the new millennium.

Get ready to rock! The Quantum is a leap forward in high speed kayak technology. A narrow rockered hull provides unsurpassed speed, handling, and control. A "sweet" spot under the paddler gives unexpected initial stability for a craft of this beam. Added to this is the high performance Sporttrek™ rudder providing unequalled efficiency in directional performance. Less work correcting and more power to move where you want. Loaded with features that no other kayaks have the Quantum is for the discerning paddler.

Manufactured by:

Extreme Interface Kayaks & Watercraft LTD.
